They're on their way to college...

They're stepping happily, with Mother and Dad, over a peaceful path leading to a full day of fun, frolic and happy memories. They don't realize it—but they're on their way to college, too. Last night the Gulf Life representative showed Mother and Dad, after they had prepared for the picnic, how their present life insurance is adaptable to the changing family plan to guarantee the future education of their children. Dad was all for it! Mother was, too! You, too, will enjoy discussing educational plans for your children with your Gulf Life man. Ask him to drop around, at your convenience. But don't postpone it. Time moves swiftly. "Tomorrow" those who will be too-sigh!

Celery Growers Second Annual Field Day Proves Successful

Mr. John Causey, Assistant County Agent for Palm Beach County, expressed the sentiments of all present at the second annual "Celery Growers Field Day" when he stated that it was a real success.

Celery growers assembled at the plant bed site of the Sullivan Farms listened to Dr. R. S. Cox discuss the results of experimental work having to do with the control of seed bed problems. According to Cox, these consist of Fusarium, yellow, red root, root rot, Rhizoctonia damping-off, nematode root knot, bacterial blight, early blight and late blight.

Cox's experiments showed that these diseases are divided into two groups from the standpoint of control: (1) soil diseases such as root knot, yellow, red root and root rot which are controlled by soil fumigation before seeding, and (2) leaf and stem diseases such as damping-off, bacterial blight, early blight and late blight which are controlled by spray materials.

Cox explained that two materials show considerable promise as soil fumigants. These are chlorophyll and methyl bromide. Both materials give good control of yellow, root knot and red root. Chlorophyll has an advantage over methyl bromide in that special covers are not essential to confine the fumes in the soil. Methyl bromide has an advantage in that it does a better job against weeds.

Cox pointed out that control of the leaf diseases is a rather involved process. No one spray material is effective against all diseases. He suggested a combination spray mixture that in early tests look promising. It is interesting to note that the mixture included the antibiotic, streptomycin in addition to such standard materials as the mineral coppers, zinc and chloranil (spgorn).

The meeting was well attended consisting of approximately 25 growers and farm managers as well as 12 to 15 experiment station workers, dealers, distributors and representatives of commercial companies.

JRC Officers Elected

From where I sit... by Joe Marsh

Shades of Tom Sawyer!

Hack Willis had just stopped the tractor so he could cool off at the pump, when a young insurance salesman came up the drive. Hack was tired of plowing, and needed insurance on his new barn. He also had to get that winter eye fix. The salesman, an eager kid, noticed hesitation. "I come from a farm," he said. "Why don't you look at these booklets—get all the dope—and I'll take that plow a couple of rounds for you."

Young fellow laid off a pretty straight furrow, too. It was almost dark before Hack—sitting

in the shade—was able to decide just what kind of policy to get. From where I sit, to be a good salesman—or a good citizen—it always helps to "put yourself in the other man's place." He may have a different sort of job with different problems... he may prefer to close a deal over, say, a friendly glass of beer while you might prefer something else. But both of you can co-operate if you make it a "policy" to try.

Sept. 29, in a meeting with last year's president, Frances Sloan, presiding. Leonard Higbee was elected president for this school year, with Bunny Whitthurst as vice president. Other officers elected were: Secretary, Ann Spann; treasurer, Margene McSwain; reporter, Frances Sloan. Mrs. Ruth Langworthy is again the teacher-sponsor for this group.

The Belle Glade JRC has a good rating in the County JRC Council, since they are always represented at the County meetings, and Janice Cole was elected to the county vice-presidency, last year.

The results of the 1955-56 JRC Membership Drive were good. The students in the seventh through twelfth grades gave \$11.51, which figured out to be one-hundred per cent for the high school.

Class meetings for the Seniors, Juniors, and Sophomores, were called Monday, Oct. 4, in order that each class might elect another representative to the Student Council.

Chandler Womack was elected by the Seniors, Kenny Norris, by the Juniors and Molly Forgie was chosen by the Sophomores.
